

Malta Business School – Graduation 2016

On 9th of June 2016, 19 students graduated successfully and obtained the ATHE Extended Diploma in Management and the ATHE Diploma in Management. The graduation ceremony was held at the Malta Business School premises in Birkirkara, which is the business institute of excellence in management and business education.

The graduation included all the students following two ATHE courses in Management during the scholastic years 2014/15 and 2015/16. The accredited Diploma programmes are work-oriented and include a good mixture of hands-on training and academic learning.

Management Diplomas from Malta Business School are designed for professionals in managerial and supervisory roles as well as aspiring managers. The Diploma in Management is based on four units, while the Extended Diploma in Management is based on 8 units in total. Participants onto the Extended Diploma in Management from Malta Business School can furthermore qualify to continue the final year of a BA (Hon.) degree at different universities in the UK with local support.

Malta Business School obtained its status as an ATHE Recognized Centre in 2014 and has been running the Diploma programmes since October of the same year. This forthcoming October we look forward to welcoming a new group of adult students to our School.
