

Leadership Training Programme for Hospital Managers

Malta Business School recently welcomed a group of eight Romanians working within the Hospital and Healthcare industry for a two day customised workshop in Health Leadership with a focus on Personal Development. This workshop formed part of their continuous professional development needs.

On day one the programme included a session with an overview of the Healthcare System in the Maltese Islands followed by a session on Leadership issues in the Health industry. A Personal Development session, specifically for Hospital and Healthcare Managers, was well received, and day one closed by looking into Strategic Human Resources practices specifically for the hospital and healthcare sector.

Day two consisted of two site visits, starting with a visit to the Live Life Rehabilitation Centre in Sliema where the participants were given a tour of the facility with a detailed explanation of how the center operates.

This was followed by a visit to Saint James (Capua) Hospital, in Sliema which also proved to be very engaging. The two visits were an opportunity for the participants to get a hands-on experience of the Healthcare system in Malta.

Through this workshop Malta Business School empowered the participants with knowledge that is applicable to their daily working experience. The overall feedback from the participants was very positive.

About Malta Business School

Malta Business School is the education division of Allied Consultants Ltd, and is licensed as a Further and Higher Education Institution by the NCFHE Malta.

Malta Business School has been running customised training for over 10 years on an extensive range of topics to private companies and public agencies that is tailor made according to client specific needs and resources on various levels. Training programmes are designed in-house and are intended to meet the needs and objectives of the organisation. All programme schedules can be kept flexible to satisfy client requirements.

We work with some of the best tutors with hundreds of hours of training experience and excellent knowledge within their field for expertise gained over the years.

Our mission is to deliver high quality and applicable knowledge which can be translated immediately into practical use. The high value placed on quality and commitment makes Malta Business School a unique institution and a learning hub for all those who would like to improve themselves, build their business skills and stretch their natural abilities to achieve success in their career.
